Gary C.

Gary says the Kaos is a pleasure to fly.

The red spinner helps Adam see the Spitfire on approach.

John says he needs to work on coming in lower on approach.

Adam had to replace the motor in the Mustang.

### POWERED PARAGLIDING SPOTTED AT CVF

Powered paragliding, also known as paramotoring or PPG, is a form of ultralight aviation where the pilot wears a back-pack motor (a paramotor) which provides enough thrust to take off using a paraglider. It can be launched in still air, and on level ground, by the pilot alone—no assistance is required.

Randy demos the aircraft marking method.

"Each aircraft will be marked with a red or green band that will be attached to the aircraft prior to each heat".

New member Jack C and daughter Everly (said she might join also).

NAU student Adam and his dad.

In "demolition derby" type racing there can be casualties.

The Spotter should raise a hand high in the air each time the aircraft crosses the starting line. This assists the timing staff to properly record the lap time for the aircraft.

Considering the heat and the lack of free food it was a pretty good turnout.

Winners

06-15-2024

CVF has a wide range of skill sets among its members. The medals were laser engraved by the very talented Steve Zingali.

The likewise talented Rick Nichols won an award for engraving on the mugs awarded to the top three. Rick said he's been engraving for over 30 years.

### ULTRIX 600MM BNF

# AL W'S PHOTO GALLERY

Mr. "2nd place" wants to be "1st place" next year in the T-28 Pylon races.

"Almost stationary in the wind".

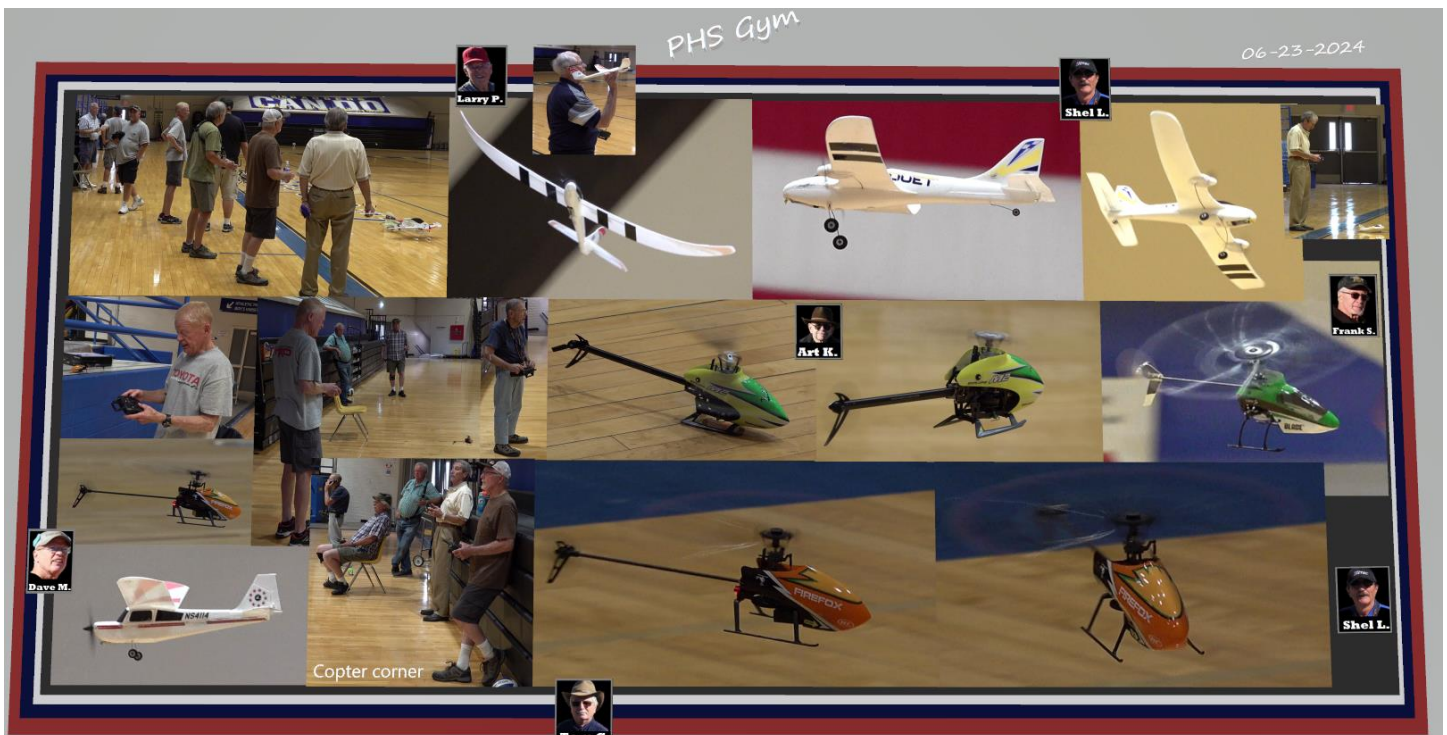

For details please check out the meeting minutes in the newsletter.

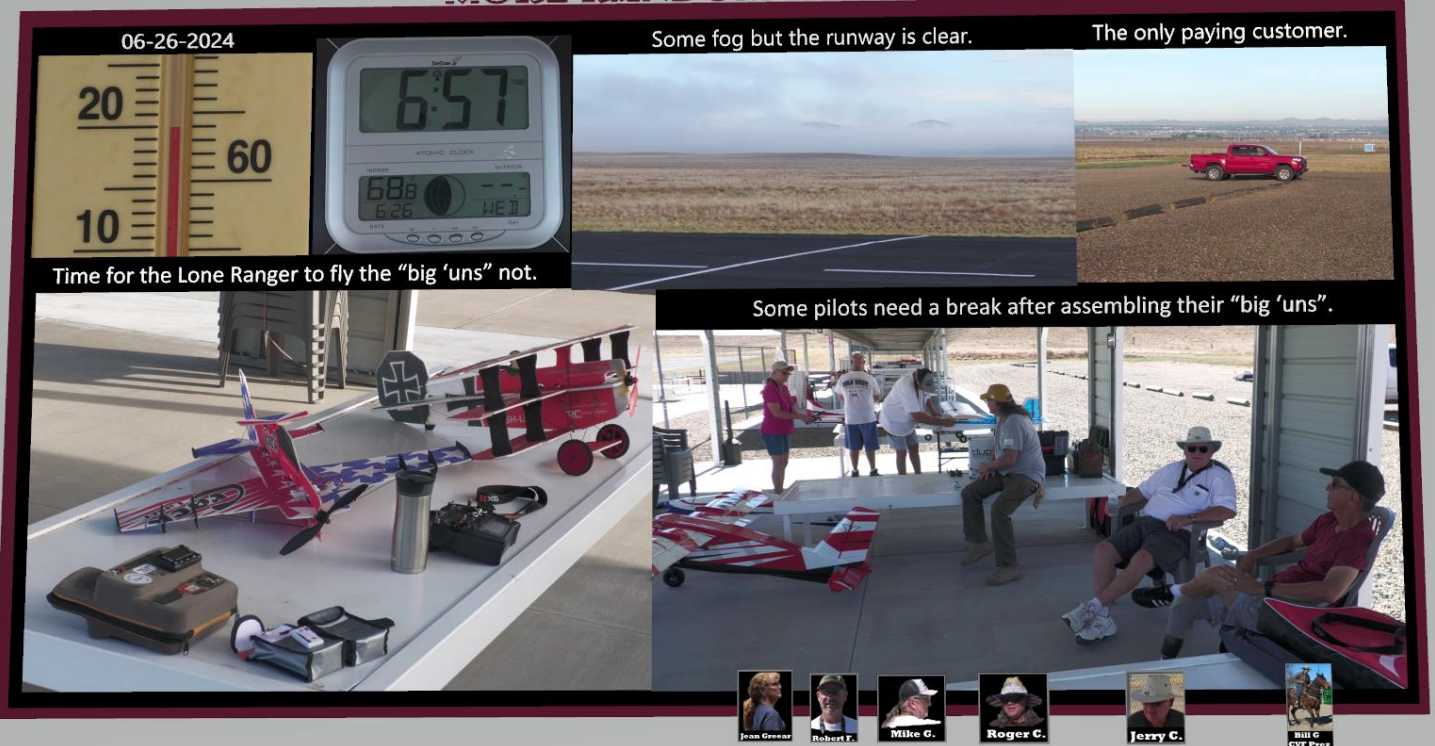

Any prize winner is generally "all smiles" and Rick is no exception here.
